# Cornerstone Christian School

## Intermediate Block Fitout

**Institution**

Cornerstone Christian School

**Customer Contact**

Angela Richards  
Executive Officer

**Year Completed**

2019

Cornerstone Christian School approached Educated Furniture for a quote to “fully outfit” four classrooms for their new/refurbished Intermediate Block. The aim of the fit out was to create flexible learning spaces with seating, desks, tables (standard and tall heights) and soft furnishings to create zones.

Executive Officer (EO) Angela Richards and Head of Department (HoD) Tarryn Rose had very helpfully drawn up a suggested layout plan of what they had in mind with images, drawings and cut outs of furniture examples they liked. Our local account manager Jono Mills worked with Angela and Tarryn to identify the best products Educated Furniture had to meet their requirements. Ultimately he came up with the following solution:

- Individual Trap Tables and Titan chairs arranged in a hexagon layout to form collaborative group settings using two different colour tones. This group table arrangement was a new concept the school had not considered and has proven to be very successful with the teachers and students.
- A combination of Tall tables, Delta Tables

and Semi Circle Tables with Pepper Stools in a variety of different arrangements thus creating different spaces within the classrooms.

- Addition of Curved Ottomans with backs for soft furnishings to create a “chill out” zone in each room.

Upon completion of the job the school specifically acknowledged the service that Jono and EF had provided. They noted Jono’s ideas and product knowledge had helped them hugely in identifying the options that would work best with their vision and the space they had available in each classroom.

“I understand Tarryn and her team love the environment including the furniture choices. In fact one of the teachers who I spoke to a couple of days ago said “please don’t ever shift me into a different class - I love it where I am” - so that is great news. Thanks so much for supporting us with the project. You made things really easy and helped us hugely, especially with your ideas and knowledge of what options could work best.”

Angela Richards, Executive Officer
